**REACT-NATIVE & REACT.JS LEAD
DEVELOPER**

Career Objective

To work and succeed in a stimulating and challenging environment, building the success of the company while I experience advancement opportunities. A forward-thinking and skilled Android/iOS , React-Native App developer who is having an experience in building, integrating, testing, and supporting Android/iOS applications for mobile and tablet devices on the Android/iOS platform.

Skills

- Frontend Development
- Mobile Application Development
- React-Native
- Android , iOS App Development
- Typescript , JavaScript, ES6-8
- Java, Kotlin
- (ReactJS, Flutter, NextJS)

Work Experience

3Insys (dynachrg.ai) (Mar 2025 – present)

- Leading the frontend architecture at 3Insys across both web and mobile platforms using Web (NextJS) and App (Capacitor, React-Native), with a strong focus on performance, maintainability, and scalability.
- Contributing and standardizing shared component libraries and design systems to ensure UI/UX consistency across platforms.
- Mentoring a cross-functional team of developers, enforcing clean code practices, linting standards, reusable hooks/components, modular libraries and CI/CD workflows.
- Collaborating closely with backend engineers, product owners, and designers to deliver high-quality, user-focused features at scale.

LoopHealth (Sept 2022 – 2025)

Loop Health simplifies healthcare with features like appointment booking, doctor consultations, prescription viewing, and more. Key contributions include:

- **App Migration & Refactoring** : Contributed to the migration of select screens from Native to React Native, simplifying logic management and code structure.
- **Bridge Optimization** : Consolidated multiple bridges into a single registry in React Native, improving maintainability.
- **TypeScript Transition** : Converted JavaScript code to TypeScript (TS/TSX) for better type safety and scalability.
- **Feature Development** : Designed and implemented the step-tracking feature for Stepathon events.
- **Component Library** : Built a reusable component library, restructured unorganized code, and standardized folder and file hierarchies.
- **Performance Optimization**:
 - Reduced app launch time from 8+ seconds to under 2 seconds by devising and executing a robust optimization plan.
 - Reduced app size from over 200MB to below 30MB on Android, enhancing performance and usability.

- **Automation & CI/CD Pipeline :**

- Added a jest test cases implementation to handle code coverage and quality.
- Added a GitHub actions
- Implemented app centre code push for run-time build binary update.
-

- **Error Handling & UX :** Developed Higher-Order Components (HOCs) and dedicated error-handling pages for better user experience.

- **Claims Management Feature :**

- Created an in-app claims feature allowing users to file claims with scanned documents and hospitalization details.
- Enabled comprehensive tracking with status updates at each step.

This work significantly improved app performance, usability, and maintainability.

KredX (July 2021 – Sept 2022)

Experienced Senior Mobile Application Developer with a proven track record of managing mobile application development and leading teams to deliver high-quality solutions. Key responsibilities and contributions include:

- Spearheaded efforts to enhance application security, implementing robust encryption/decryption mechanisms and integrating biometric authentication using camera, fingerprint, and passcode login options.
- Collaborated on resolving existing application issues, including optimizing app size, improving frame loading performance, and enhancing wallet management functionalities.
- Played a key role in designing and implementing new features, such as the Buy Now Pay Later (**BNPL**) module, providing seamless payment options to users.
- Developed and streamlined **in-app KYC** (Know Your Customer) workflows to ensure smooth and compliant user verification processes.
- Provided technical leadership and guidance to the team, fostering a collaborative environment to meet project goals and deadlines effectively.

Skilled in delivering secure, efficient, and user-centric mobile applications while driving innovation and maintaining high development standards.

Think Future Technologies

Oct 2018 – July 2021

AmpleWork Technologies

Dec-2017 – Oct-2018

Rayz InfoTech

July-2017 – Nov-2017

Senior React-Native App Developer**React-Native App Developer****Android and React-Native App Developer****Project Details** (<http://shivamkhandelwal.com/project>).

Loop Health	Senior Mobile App Developer
Kredx Mobile App	Mobile App Lead
Constructor project management application	Mobile App Lead
Car Selling Application	Mobile App Lead
Urdu learning application	Senior React-Native Developer
Fintech application	Senior React-Native Developer
Live Concert	Frontend Lead
Ambulance Tracking App	Senior React-Native Developer
BLE connection	Senior React-Native Developer
Avanta- Service Pro	Team Lead
Avanta -Business Pro	Team Lead
Tele Consultation	Team Lead
TeleMedicine	Team Lead
Application for gym	Team Lead
Aimbetter	Senior React-Native Developer
Speech To Text Live Meeting App(NDA)	React-Native Developer
Sneeze-o-rama	React-Native Developer
PlaySive	React-Native Developer
E-Auction App(AgroBatida)	React-Native Developer
Alavadeira Admin App	React-Native Developer
Alavadeira App	React-Native Developer
ItsMee.ch	React-Native Developer
Relief	Android Developer

Project Experience

- Worked on Health based modules
- Worked on Tele Medicine modules
- Worked on Mobile application development with firebase backend
- Worked Native Android App with java/kotlin
- Worked on iOS Mobile App development with Objective C/ swift
- Worked on Education/Sports/Fitness application
- Image Scanner (OCR), Object detection Worked on AR based application
- Worked on AI modules for mobile application
- Worked on
- Worked on graphql api
- Worked in payment gateway integration.
- Worked on CryptoJS
- Worked on an agile, waterfall.
- Working on React-Native App
- Worked in Social network integration like Facebook, Twitter, Google etc.
- Worked in Firebase integration.(Remote config, real time db, analytics, crashlytics) etc
- SMS auto verification for both Android and iOS
- Worked on AMAZON Web Services integration like aws3 for photos bucket...
- Worked on Camera QR code reader app Worked on Speech to text. (Native Module) Worked on text to speech.
- Worked on voice command in the application Worked on android TV Apps using react-native Worked on Several different Libraries

Technical Knowledge

- Hands on experience working with React-Native Development (Mobx, React-Redux, Redux-thunk, Redux-saga, Redux-toolkit, Context Api Flex, Axios, Redux-Saga, EcmaScript/ES6, React Navigation, NPM, Babel, third-parties library). Strong understanding of Flex design & CSS.
- Ability to maintain communication with other staff and pass information on latest trends in architecture software.
- Handle complications arising from the development.
- Exemplary general IT knowledge (applications development, testing, deployment, operations, documentation, standards, best practices, etc.)
- Expertise and experience in lightweight, rapid development, agile methodologies. Good ability to anticipate issues and formulate remedial actions.
- Produce good user experience for users.
- Good knowledge of the company product development life-cycle and the process tools.
- Having some basic skills with ReactJS web projects
- Done some POC for Flutter App

Education Details

Degree	Institute	Board	year
M.C.A	JNU	JNU	2018
B.c.a	Dr.MPS	DBRAU	2016
Intermediate	Agra Vanasthali	CBSE	2013
High School	SRGMSS, Agra	CBSE	2011

Personal Details

Address	L-213, DLF New Town Heights 86, Sector 86, Gurugram – 122004
Date of Birth	27/02/1995
Gender	Male
Nationality	INDIAN
Marital Status	Married
Languages Known	Hindi, English

Declaration

I hereby declare that all the details furnished here are true to the best of my knowledge and belief.
